HER MAJESTY'S
JUSTICES OF THE PEACE
FOR THE
COUNTY OF DURHAM,
IN
GENERAL QUARTER SESSIONS
ASSEMBLED.

—ooo—

The Committee of Visitors have to REPORT
that the number of Patients is as follows:—

		Males.	Females.	Total.
On 31st. December 1868	...	253	239	492
Admitted during 1869	...	95	77	172
Total under Treatment	...	348	316	664

Discharged:—	Males.	Females.	Total.
Recovered ...	26	37	63
Relieved ...	2	5	7
Not Improved	2	1	3
Died ...	41	40	81

Total Discharged	...	71	83	154
------------------	-----	----	----	-----

Remaining on 31st. Dec. 1869	...	277	233	510
------------------------------	-----	-----	-----	-----

Daily Average number of

Patients for 1869	270·7	234·3	505
Do. do. 1868	245·0	235·0	480

The Cost of Maintenance per head is as follows:—

			S.	D.
Provisions	4	9.83
Clothing	0	9.24
Salaries and Wages	1	7.85
Necessaries	1	0.50
Surgery and Dispensary	0	1.34
Wine, Spirits and Porter	0	5.69
Furniture and Bedding	0	5.28
Garden and Farm	1	1.12
Miscellaneous	0	2.07
			<hr/>	
			10	6.92
Less by Sales during the Year			<hr/>	
			9.38	
			<hr/>	
Total Cost			9	
			9.54	

The following table shews the cost per head per week for the last three years.

				1867		1868		1869	
				S.	D.	S.	D.	S.	D.

				<hr/>		<hr/>		<hr/>	
Total Cost				10		9		9	
				1.04		5.25		9.54	

From which it appears that the additional cost has been principally in Meat and this from the price of Meat per stone, and not from the quantity consumed, for since we have purchased Cattle for the larder, the quantity of Meat consumed has been less than when it was bought from a butcher, for whereas previous to 1866 the yearly

quantity consumed by each patient was $222\frac{1}{2}$ lbs., it now amounts to only $208\frac{3}{4}$ lbs. We are in fact getting the butcher's profit. We have altered the manner of charging the cost of Meat which for the last three years has been charged under the head "Farm and Garden." We have thought that it was more correct to charge it under "Provisions": much the greater part of it consists of Cattle bought by our farm Manager, and slaughtered for the use of the Asylum, for the most part either immediately or after having been kept a very short time on the Farm. This change of heading makes no difference in the total result.

Our last report holds out the prospect of a great saving being effected in the Laundry by the use of Steam Machinery. We find in fact that about £100 has been saved during the last year in the cost of a Laundry Maid, Soap and extra diet, and the Matron assures us that as great an amount has been saved in the wearing apparel which was before much injured by the long period during which it remained wet.

In consequence of the increase in the number of patients and the previous crowded state of the Male Wards and Infirmary, the General Committee of Visitors met twice at the Asylum and came to the conclusion that the Infirmary accommodation was quite insufficient, and should be improved as soon as possible, that the best mode of doing so, would be by building a portion of the New Wing for Males together with the Connecting Corridor, and that it would, without doubt, be more economical to add to

the present Asylum than to build one in another locality. Since this the Commissioners in Lunacy have visited the Asylum and their report contains the following paragraph "We cannot too strongly urge on the Committee of Visitors the importance of proceeding without further delay to the extension of the accommodation of Male Patients for which plans, analogous to those applicable to the Female division, have been long ago prepared." This plan has been approved by the Quarter Sessions and by the Commissioners in Lunacy. The work is now in progress, and the Corridor is nearly completed.

In the month of June, Scarlet Fever broke out in the Asylum. Dr. Smith and his Assistant Dr. Wallis being attacked at different times, the temporary services of an additional Medical Officer became necessary. The Fever continued for six weeks and one female patient died of it.

The new wing for the Females having been finished and occupied, and measures having been taken to relieve the overcrowding of the patients, it is confidently expected that the condition of the Asylum for 1870 will be more favourable than that of the three preceding years.

Signed,

Rowland Burdon, (Chairman.)

George Hall,

Charles Henry Ford,

Angus Bethune,

John Fogg Elliott.

THE MEDICAL SUPERINTENDENT'S

REPORT FOR THE YEAR, 1869.

GENTLEMEN,

I beg to present for your approval the Eleventh Annual Report of this Asylum.

Four hundred and ninety-two patients, viz :— 253 men and 239 women, were resident on the last day of December, 1868. During the year 1869, ninety-five men and seventy-seven women were admitted, making a total of 664 patients under treatment: of these 172 admissions, ten men and nine women had on previous occasions been inmates of the Asylum. Of the total number under treatment, 63 viz. 26 men and 37 women recovered, 2 men and 5 women, improved, 2 men and 1 woman left not improved, and the very large number of 81 died. So that at the end of the year, there was a resident population of 510, or 18 more than at the commencement: there was an increase on the men's side of the establishment of 24, while on the women's side, there was a decrease of 6 patients.

The condition of the admitted was more than usually unfavourable. Many were admitted in the last stages of exhaustion from Phthisis, General Paralysis, and other diseases, increasing thereby the death rate, and adding greatly to our expenses.

Among the Recoveries will be found at Table X, five cases of General Paralysis. These having recovered so far as to render their stay in the Asylum irksome to themselves, and otherwise undesirable, were permitted to leave the Asylum for limited periods, and at the expiration of their leave, were reported "Recovered," by the Medical Officers of their Unions, and were consequently discharged as such ; should they remain in the County, they will without doubt return to end their days in the Asylum. A woman, who had been upwards of eight years in the Asylum, was amongst the Recoveries.

Of those "Relieved," and "Not Improved," one woman, was transferred to another Asylum, the others were removed by their Relatives on giving the undertaking prescribed by law.

I am most thankful to be able to state that no accident contributed to increase our death rate ; of the 81 deaths, no fewer than 24 were the result of General Paralysis, while other forms of Brain or Spinal Disease contributed 29 ; consequently 65·4 per cent. of the deaths resulted from Diseases of the Nervous System, acquired prior to admission, and over which, beyond perhaps prolonging existence, medical treatment had little influence. Thirteen deaths were registered from Phthisis, and the large majority of these cases were admitted in advanced stages of the disease.

From the middle of May until September, isolated cases of Scarlet Fever occurred in the Asylum, and among the families of various of the Officials. The disease was however most prevalent among the Nurses on the women's side, only two patients having been affected ; one of the latter, a woman, unfortunately died.

The Infirmary Block was opened in September. It is a cheerful, comfortably arranged building, with a pleasant look out, capable of affording accommodation for 200 patients. It is worthy of being noted that fourteen of the noisiest, dirtiest, most destructive women were transferred as an experiment to a small, comfortable, and neatly furnished room in this block, and two intelligent and experienced nurses placed in charge : very shortly afterwards, manifest signs of improvement were visible ; one by one patients who had never worked before were seen with seams in their hands, the noisy became quiet, and the disorderly in person neat in appearance. At the end of a few months when the experiment ended, all with the exception of one, had become greatly improved, and now at the expiration of six months, exhibit proof of the judicious treatment then bestowed on them. There can be no doubt that if the patients throughout the kingdom are of the class seen in this County, minute classification in small

cheerful neatly furnished compact wards, increased attendance and increased Medical supervision would do more than all the restraint, coercion and padded rooms so recently urged in various quarters, not only to prevent accidents and injuries to patients, but to promote their recovery, and to increase the happiness of those who can never hope to be restored to their homes or friends. It is neither Attendants nor Medical Superintendents who are to blame for the great proportion of accidents which occur in Asylums, but the Rate-payers themselves, who grumble at any apparent expense, however necessary it may be. Were they to be true to their own interests, true to the interests of the Insane, and true to the cause of humanity, there would seldom be any necessity for drawing attention to ribs broken or other cruelties committed in Asylums. When the Ratepayer never visits the Asylum to which he contributes, never shows his sympathy with the Inmates, and never even sends an old newspaper to relieve the monotony of their existence, he cannot expect that the inferior officer will do other than follow his example, and look at their fellow creatures from merely a pecuniary point of view.

Among those who have not forgotten that they have fellow creatures in this Asylum, must be mentioned, Miss Manning of Colchester, who has

so constantly, kindly and liberally supplied us for many years with books and periodicals; Mr. Scurfield Grey who has sent weekly a copy of *the Illustrated London News*; the Editors of *the Durham Advertiser*; *the Stockton and Hartlepool Mercury*; and *the South Durham Herald*. It would be out of place here to indicate those of the Visiting Justices who have so liberally and so frequently administered to our necessities and comforts.

With the exceptions, three in number, which have been brought under your notice, the Attendants have during the past year, given much satisfaction by their conduct.

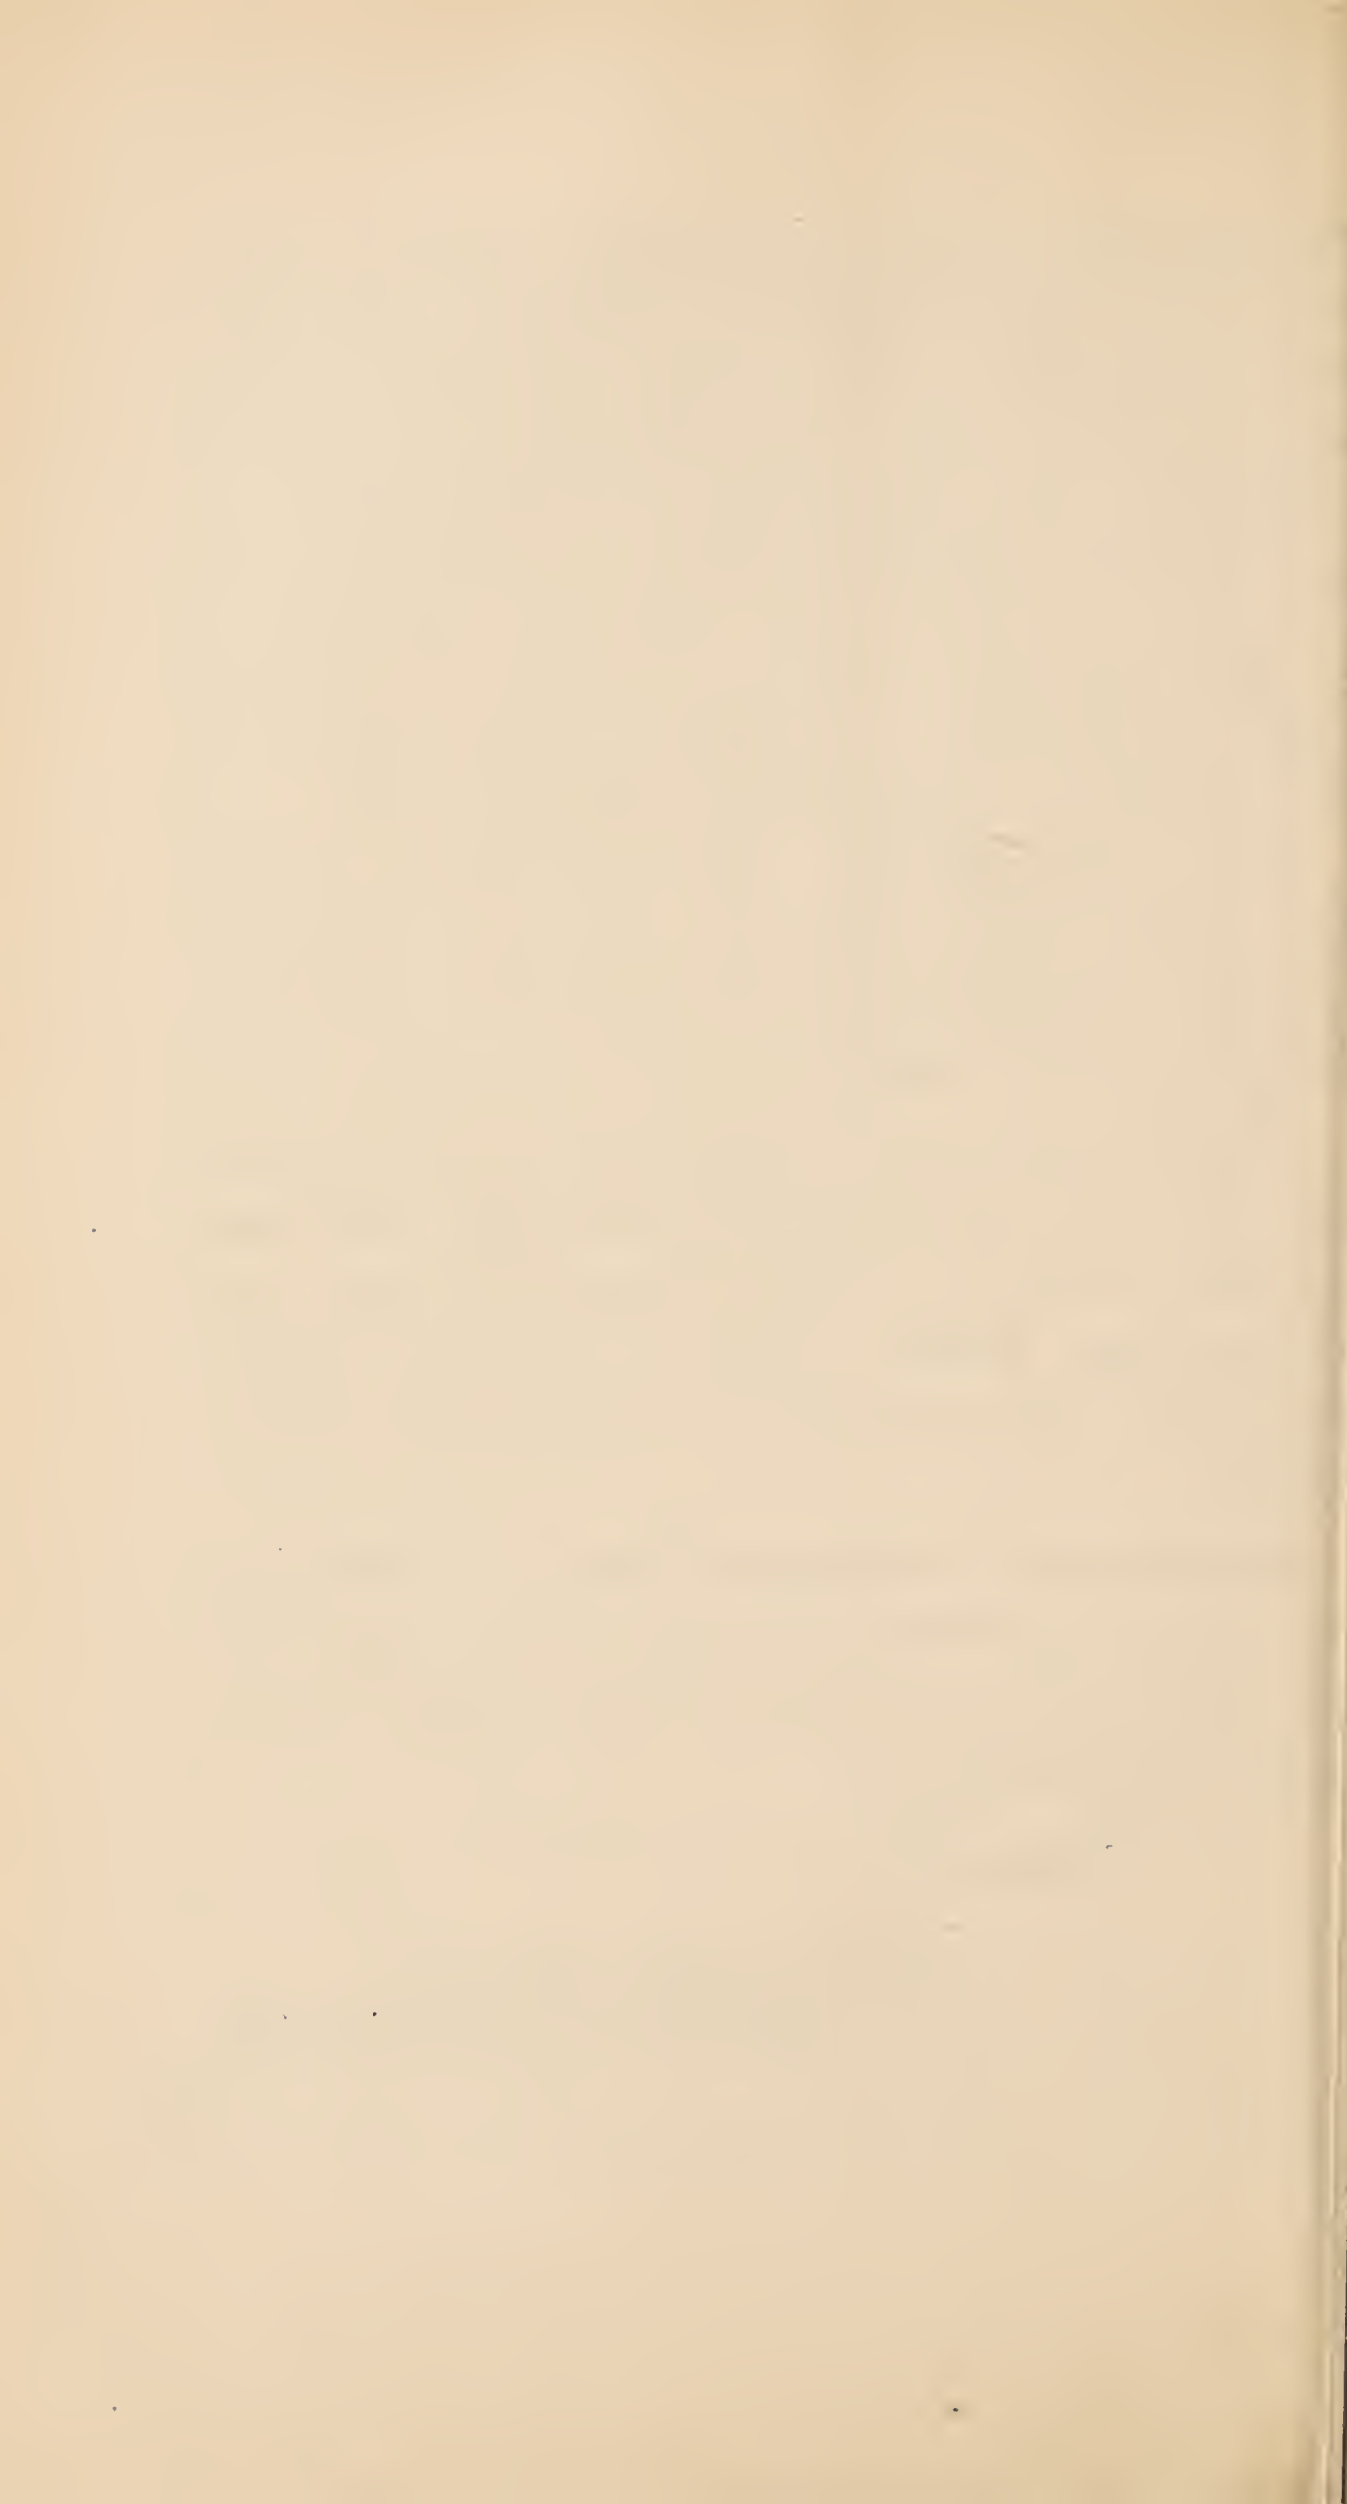

The Amusements continue much as in former years, except that an additional night has been occupied weekly in Readings and Vocal and Instrumental Music.—Cricket, Football, Quoits, Bowls, &c., have been our chief out-door amusements.

In conclusion, Gentlemen, I have to thank you for much kind consideration and courtesy experienced during the past year at your hands, and I have the honour to be,

Gentlemen,

Your obedient Servant,

ROBERT SMITH, M.D.
